

VIDEO ABSTRACTS

ENGLISH

This 20-minute documentary explores the revolutionary invention of the World Wide Web by Tim Berners-Lee in 1989. The video traces the journey from the early internet to the creation of HTTP, HTML, and the first web browser, explaining how these technologies transformed information sharing and connected billions of people worldwide. Through clear explanations and historical context, viewers will understand how one scientist's vision of universal connectivity changed the course of human communication and created the digital world we live in today.

KISWAHILI

Filamu hii ya dakika 20 inachunguza ubunifu wa mapinduzi wa Wavuti Ulimwengu (World Wide Web) na Tim Berners-Lee mnamo 1989. Video hii inafuatilia safari kutoka mtandao wa awali hadi kuundwa kwa HTTP, HTML, na kivinjari cha kwanza cha wavuti, ikielezea jinsi teknolojia hizi zilibadilisha ushiriki wa habari na kuunganisha watu bilioni ulimwenguni kote. Kupitia maelezo wazi na muktadha wa kihistoria, watazamaji wataelewa jinsi maono ya mwanasayansi mmoja ya uhusiano wa ulimwengu yalibadilisha mwelekeo wa mawasiliano ya binadamu na kuunda ulimwu wa kidijitali tunaoishi leo.

KIKUYU

Filamu iyi ya miniti 20 niyoroirie ūhoru wa gūtūma wendo wa Wavuti ya Thĩ Yothe (World Wide Web) na Tim Berners-Lee mwaka wa 1989. Video iyi niyonania rūgendo kuuma internet ya kĩambĩrĩria nginya gwakwo kwa HTTP, HTML, na browser ya mbere ya wavuti, ĩkĩheana ūhoru wa ūrĩa mabataro maya maagarũire kũgayana ūhoru na kũohania andũ bilioni thĩ yothe. Na ūtaũri mwega na mahinda ma tene, arori nĩmakamenya ūrĩa mwono wa mũthigani ūmwe wa gūtūma andũ mothe mahĩkanĩre waagarũire njĩra ya andũ gūtūmanagĩra ūhoru na gũthondeka thĩ ya digital tūtũruga ūmũthĩ.
